

Guidelines for Submissions:

- Road Log articles should be no longer than 3-4 pages in length. Additional length can be put in the post conference guidebook. Supporting articles can be put in the guidebook. **Road Log submissions inclusion are subject the discretion of the editor based on space and relevance to stops.**
 - If an article/paper has been published elsewhere, we will print a single page abstract representing the content of that paper/article as well as a link to the full publication.
- Please include coordinates of all locations.
- Articles should be double spaced 12 pt Times New Roman font
- Please submit in Word format
- In both the text and figures, be aware that some readers may have a visual disability. Please design any figures in such a way that they will be accessible to those individuals. Use labels, patterns, varied line weights etc in addition to colors.

- Photos should be high resolution. (Screenshots typically are around 72 ppi and will not transfer well during formatting and printing)
- Figures and photos may be placed in the general location you wish in the word document submitted. However, this placement may be changed based on book formatting.
- Please submit high resolution figures and photos in a separate file from the word document.
- All articles should be well written and edited prior to submittal.
- Please submit a photo (headshot style preferred) and a contact email for the author byline.

If there are geologic things of interest along the route to your location, please provide their coordinates, as the entire turn by turn directions for the road log will not be included, but locations and descriptions of things of interest along the way will be included.
