Hazard Training & Recognition Checklist

Valid for one year unless operating condition change requiring revised training.

Persons delivering goods, performing services, collecting material, or visiting and inspecting this property and who are not regular employees, may encounter certain hazards during that time. Under the requirements of the federal Mine Safety and Health Act of 1977 (30 CFR, Part 48 Subpart B), such person must be made aware of those hazards and any applicable safety procedures or rules. All contractors/Sub Contractors performing services on mine property are responsible for compliance with Part 56 of the Code of Federal Requisitions (CRF 30) for Mineral Resources.

During your time on our property, please observe all posted rules and regulations, including speed limits, and carefully follow all verbal instructions given by plant management or other authorized personnel. Immediately report to your trainer or plant supervisory personnel any suspected hazard you may encounter. Your access is limited to designated areas. You are not cleared or trained for other areas of this mine.

Hazards You May Encounter	Procedure/Rules for Avoiding Injury
<input type="checkbox"/> Moving Equipment	Be alert and remain clear of moving equipment. Make sure the operator knows you are there. Be aware of any special traffic or driving hazards.
<input type="checkbox"/> Traffic Patterns	Traffic Pattern at this location is standard, L.H, or combination.
<input type="checkbox"/> Right of Way	Haul trucks, loaders and water trucks always have the right of way
<input type="checkbox"/> Moving Machinery	Be alert and remain clear of moving machinery. Do not work around any moving Machine, or perform work on any machine that has not been stopped and blocked to make it safe from movement. If the machine is powered by electricity, then the Electrical power source should be off, locked out and tagged.
<input type="checkbox"/> Noise	Wear hearing protection.
<input type="checkbox"/> Eye Protection	Wear safety glasses, goggles or face shields as appropriate.
<input type="checkbox"/> Respirable Dust	Wear a respirator.
<input type="checkbox"/> Tripping or Falling	Exercise care when getting in and out of your vehicle, and when stepping over or around any obstacle. Use handrails on stairs and walkways. Use fall protection equipment when appropriate.
<input type="checkbox"/> Injury from Lifting	Use correct lifting procedures to avoid injury, and enlist aid in lifting heavy objects.
<input type="checkbox"/> Falling Objects	Wear hard hat at all times. Inspect the area above where you will be working. Wear hard-toed safety shoes to protect your feet.
<input type="checkbox"/> Fire or Explosion	Do not smoke or use flame producing devices. Obey "NO SMOKING OR OPEN FLAME" signs in areas where flammables exist.
<input type="checkbox"/> Welding Fumes or Engine Exhaust	Avoid areas where welding fumes or engine exhausts are present.
<input type="checkbox"/> Welding Flash	Avoid areas where operations are being conducted, and do not look at flash
<input type="checkbox"/> Improper Tools	Always select and use the correct tool(s) for the work on hand.
<input type="checkbox"/> Weather	Avoid working outside during extreme weather conditions such as thunderstorms, Heavy rain, hail, or high winds. Make sure that the snow and ice have been removed or covered with material to give a safe footing.
<input type="checkbox"/> Blasting	Be alert and remain clear of the blasting area. Heed the warning siren.
<input type="checkbox"/> Ground Control	Do not attempt to enter any area where weak ground conditions or high walls exist. Mobile equipment in unsafe areas must be moved or towed to a safe area prior to servicing.
<input type="checkbox"/> SEAT BELTS	Seat Belts are MANDATORY on company property and must be used at all times.
<input type="checkbox"/> Customer Trucks	Customer MUST remain in their vehicle while in the load area.
<input type="checkbox"/> Other Hazards	

Emergency In the event of an emergency our assembly area is: Scale House

Your designated work area: West High Wall

The preceding hazard training has been discharged in accordance with our approved MSHA Training Plan. Training given to: False certification is punishable under section 110(a) and (f) of the Federal Mine Safety and Health Act I certify that the above training has been completed.
